

SENATE BILL 1089

By McNally

AN ACT to amend Tennessee Code Annotated, Title 7 and Title 48, relative to energy.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF THE STATE OF TENNESSEE:

SECTION 1. Tennessee Code Annotated Title 48, is amended by adding the following as a new chapter thereto:

Section 48-\_\_-101. This chapter shall be known and may be cited as the "Electric G&T Cooperative Act".

Section 48-\_\_-102.

(a) The general assembly finds that a need has developed for electric utility systems engaged in the distribution of electric power and energy in this state and adjoining states to have additional sources of electrical energy through traditional sources of generation and through renewable, clean and passive sources of electrical energy, as well as through other sources known and those sources yet to be known and discovered.

(b) The general assembly finds that because of economies of scale needed for many forms of electrical energy supply resources, there are opportunities to acquire and operate these additional sources of energy on a cooperatively owned basis from owned or leased facilities to fulfill growing needs in and around this state.

(c) The general assembly finds a need to provide a statutory framework for the creation and operation of non-profit cooperative entities to allow groups of non-profit cooperatives and municipally, county or other governmentally owned electric utility systems to make electrical power available at the lowest feasible cost, consistent with

sound business principles, for wholesale sales to retail suppliers in communities within and without this state.

Section 48-101-103. As used in this chapter:
